# Create a database in cloudant DB
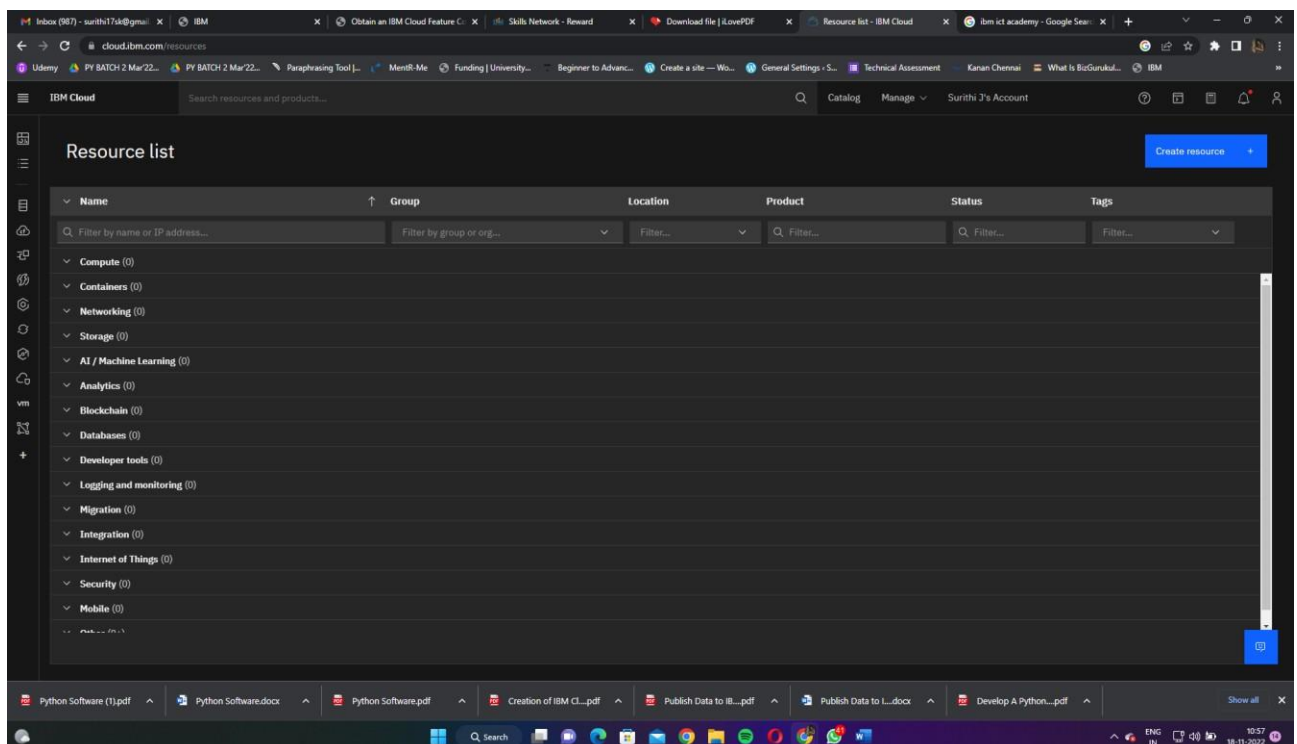

Team ID	PNT2022TMID26592
Project Name	PROJECT – Hazardous Area Monitoring Industrial Plant Powered By IoT

**These are the steps followed to create a CLOUDANT DB (DATABASE).**

**Step 1:** Login into IBM CLOUD account.

**Step 2:** On the top left corner click on RESORCE LIST.

Step 3: Search for Database option then click on drop down arrow or click Create resource and then search for Database option.

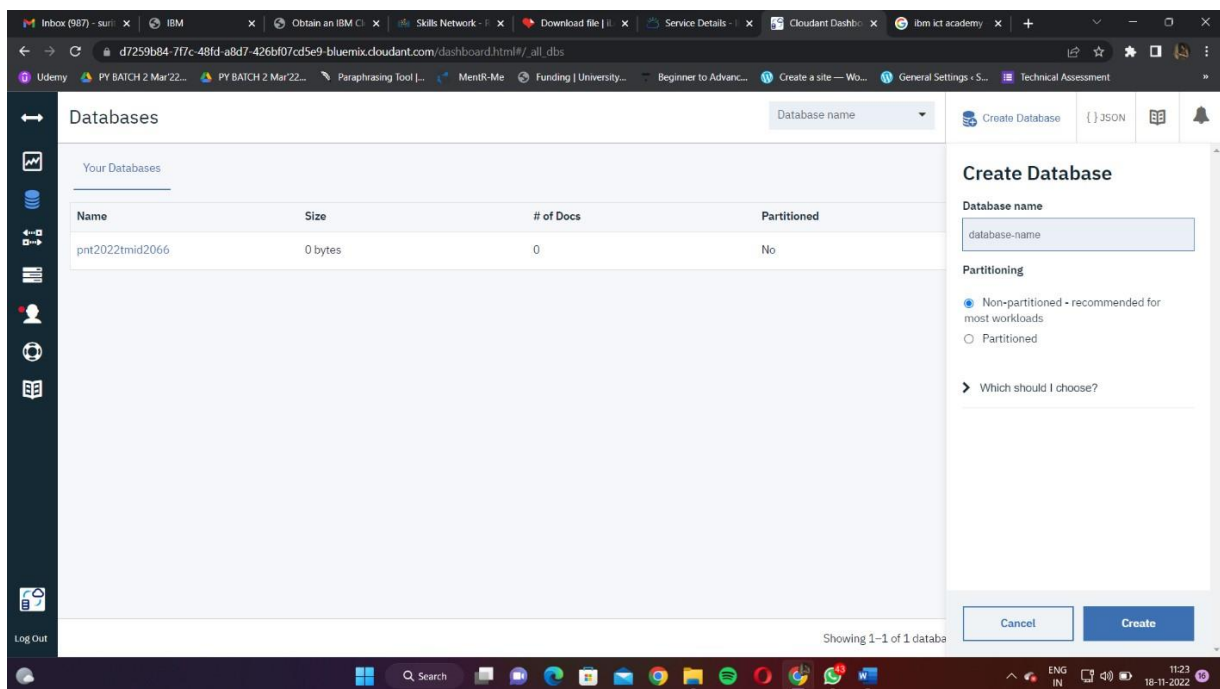

Step 4: Then click on CLOUDANT, later click on 'Create'

Step 5: Now, cloudant window appears then click on launch dashboard on right corner

Step 6: Click on create database on right corner then provide the name for database and check the -partitioned - recommended for most workloads > option then click on create.

Step 7: Finally, cloudant DB was successfully created.
